

Environmental Policy Statement

Colorado Construction & Engineering Ltd and its subsidiaries and associated companies, hereinafter referred to as 'The Group' recognises that its activities may impact upon the environment through its operational activities and is committed to complying fully with the Environmental Protection Act 1990 and all associated environmental and waste legislation.

As a progressive company, The Group are firmly committed to achieving optimal operational and management standards above the statutory requirements wherever reasonable and practicable and shall:

- Develop and maintain an effective environmental management system.
- Assign environmental responsibility throughout the business.
- Identify its significant impacts and establish clear environmental and waste targets and allocate resources to implement these targets.
- Reduce environmental impacts by provision of material re-cycling systems and re-use of materials.
- Regularly review environmental performance with the aim of minimising effects arising on the environment.
- Seek to minimise the use of energy, materials and natural resources via the recycling strategies.
- Avoid, wherever practical, the use of environmentally damaging substances, materials and processes.
- Seek to dispose of unavoidable wastes in a way, which has least impact on the environment.

The successful implementation of this policy and the Environmental Management System will require total commitment from all levels from Employees to Senior Management.

This statement will be regularly monitored to ensure that the objectives are achieved. It will be reviewed and, if necessary, revised in the light of legislative or organisational changes.

Signed

Date: 13th January 2023

Ian Bownes
